

Care Instructions

Oregano

Location:

Part shade to full sun (avoid midday harsh summer sun), indoor or outdoor near the BBQ. Trim regularly to encourage a bushy and compact growth.

Use to flavour pizzas, lamb, pork, tomato dishes and salads.

Watering:

As a rule of thumb, water your kokedama once a week or when it feels light. Adapt the watering depending on the temperature and the ambient humidity: water less frequently in cooler months, more frequently in warmer month. Windy and hot conditions tend to dry the moss ball quicker.

keep the ball slightly moist by watering from the top when it is nearly dry. Keep moist in dry weather conditions.

Toxicity:

Non-toxic to humans and pets
